

EXP19.CREATE A STORAGE SERVICE USING ANY PUBLIC CLOUD SERVICE PROVIDER (AZURE/GCP/AWS) AND CHECK THE PUBLIC ACCESSIBILITY OFTHE STORED FILE TO DEMONSTRATE STORAGE AS A SERVICE.

The screenshot displays the Microsoft Azure portal interface. The browser address bar shows the URL: `portal.azure.com/#view/HubsExtension/DeploymentDetailsBlade/~/overview/id/%2Fsubscriptions%2F6f8c405b-f766-48c9-81f1-fa76...`. The page title is "recordstoragemanish_1709905855749 | Overview". The left sidebar contains a search bar and a navigation menu with "Overview", "Inputs", "Outputs", and "Template". The main content area features a green checkmark icon and the text "Your deployment is complete". Below this, deployment details are listed: "Deployment name: recordstoragemanish_1709905855749", "Subscription: Azure for Students", and "Resource group: DefaultResourceGroup-EUS". The start time is "3/8/2024, 7:21:16 PM" and the correlation ID is "4cbe20bc-1d52-48c6-923c-8250a014f100". A "Go to resource" button is present. The right sidebar contains several tiles: "Cost Management" (Get notified to stay within your budget and prevent unexpected charges on your bill. Set up cost alerts >), "Microsoft Defender for Cloud" (Secure your apps and infrastructure. Go to Microsoft Defender for Cloud >), "Free Microsoft tutorials" (Start learning today >), and "Work with an expert" (Azure experts are service provider partners who can help manage your assets on Azure and be your first line of support. Find an Azure expert >). The Windows taskbar at the bottom shows the search bar, task view, and various application icons, along with system information like temperature (29°C), time (7:22 PM), and language (ENG).

Endpoints

Enabling static websites on the blob service allows you to host static content. Webpages may include static content and client-side scripts. Server-side scripting is not supported. As data is replicated asynchronously from primary to secondary regions, files at the secondary endpoint may not be immediately available or in sync with files at the primary endpoint. [Learn more](#)

Static website

DisabledEnabled

Improve the page load time of your static website by using the caching features of Azure Front Door (Additional costs apply). [Azure Front Door](#)
